Robert Petrocelli

*Chief Technology Officer
Pluralsight*

Robert Petrocelli is the Chief Technology Officer at Pluralsight, Inc., the leading technology workforce development company that helps companies and people around the world transform with technology. In his role, Robert leads Pluralsight's world-class technology organization and is responsible for development and operations of the company's flagship products.

Robert joined Pluralsight in August 2023, bringing with him over 30 years of experience deeply rooted in technology innovation and leadership. Robert is well-known for being an experienced serial entrepreneur, business operator, and technical strategist. He most recently served as CTO of Intelerad, where he advanced the company's software capabilities, driving stronger alignment between client needs and company offerings, and supported the expansion of the company's product lines. Prior to Intelerad, Robert served as CTO of Datto, a leading global provider of cloud-based software and security solutions, where he led a 750-person R&D team focused on developing and operating a 1.5 EB hybrid cloud.

Robert's experience also extends to founding premature atrial contractions (PACs) pioneer HeartLab, which he successfully ran for over 10 years before it was acquired by AGFA in 2005. He also founded GreenBytes, a storage optimization company focused on hyper-efficient data reduction using novel data deduplication technology. GreenBytes was acquired by Oracle in 2014.

Robert holds a master's degree in computer science from the University of Rhode Island and a PhD in computer science from Brown University.
